

A histogram showing the distribution of the number of runs for 800 trials. The x-axis represents the number of runs, ranging from 0 to 100. The y-axis represents the frequency, ranging from 0 to 10. The histogram bars are green. A red dashed line represents a normal distribution curve fitted to the data. The distribution is centered around 30 runs. A legend in the top right corner indicates 'No. of runs: 800'.

No. of runs: 800

No. of runs: 800
